PROJECTS

• PaYtm: February, 2024 – April, 2024

- I made this project to help and proceed the money transactions online.It provide users a seamless and secure way to make payments.
- It contains a good looking interface having features of signing in and signing up with a day and night theme option.
- In this online transaction platform we can send and receive money and also check account balance with the help of gateway integration in it.We also get an pop message when we send or receive money via another account.
- Technology used – CSS(Tailwind), Postgres Database,Next js,Express (Auxiliary backends),Prisma ORM.
- Description – By using this we can do transaction securely via UPI etc.

• Quiz Game : August, 2023 – September, 2023

- I made this project to increase my learning speed and to learn things in fun way with my friends.
- It has a good looking user interface.In which we can enter our name and make some high scores ,which were stored in backend.Features likes lifelines such as 50-50 make this game even more interesting.
- Technology used – Core Java,java swing.
- Description – By using this project we can organize quizzes by playing games.

SKILLS

- | | | | | | | |
|-----------|-------------|--------|-------|---------------|--------------|-----------------------------|
| • Next js | • Core Java | • HTML | • CSS | • Java Script | • MERN Stack | • DSA in Java(intermediate) |
|-----------|-------------|--------|-------|---------------|--------------|-----------------------------|

ACHIEVMENTS

- coordinator in blood donation mela.
- Winner in quiz competition organized by java club.
